

# Fresh Carica Dieng

## Carica In Syrup

### What is Carica In Syrup ?

Carica in Syrup is processed carica fruit with sugar and water

### What is Carica ?

Carica is one type of papaya fruit or often called papaya mountain, but that interest and unique from carica fruit are :

- ♦ Carica fruit just can only grow at one place in Indonesia, that is in Dieng Plateau - Banjarnegara - Central Java - Indonesia, could not be in another place.
- ♦ Carica fruit can not eaten immediately, must be processed first like carica in syrup, not like papaya fruit can eaten immediately.
- ♦ And then Carica fruit in sugar syrup have unique taste and texture, there are not found in another fruits. The taste is mixed of peach, mango, and pineapple.

This Product does not use Preservatives, Coloring, and Artificial Sweeteners , only Carica fruit, Sugar, and Water.

CARICA IN LIGHT SYRUP PROCESSED EXELLENTLY AND HYGIENICALLY  
FROM SELECTED EXOTIC DIENG PLATEU FRUIT.

FULL OF VITAMINS A, B, C, E, AND PAPAIN ENZYME.
