

## **Pitamas Group**

*Adhesive tape manufacturers with acrylic water-based, synthetic rubber-based and solvent rubber-based technologies*

Starting with PT. Nachindo Tape Industry in 1983, Pitamas Group began its operation in adhesive tape manufacture and has grown into a key producer nationally and globally. PT. Nachindo Tape Industry currently holds the position as a market leader in Indonesia's domestic market.

Based on the intention to meet the world markets demands, PT. Pitamas Indonusa established in 1996 to seize the opportunity and then became internationally recognized adhesive tape producer. It has become one of the biggest acrylic tape manufacturers in the world with integrated polymer plant, coating and slitting lines.

Pitamas Group has been establishing its position as one of the best adhesive tapes manufacturers in the global market. By bringing reliable products and more than 30 years experience, Pitamas serves worldwide demands with different adhesive technologies includes acrylic water-based, synthetic rubber-based and solvent rubber-based, with various items and specifications developed by its own research and development team.

In 2006, with more than 2 decades of experience in the adhesive tapes industry, Pitamas Group was established another plant for specific markets of hot melt-based adhesive tapes. Targeting both domestic and international markets, Pitamas Group further strengthened its position as a pioneer of synthetic rubber technology adhesive tapes producer in South East Asia.

PT. Pitamas Indonusa expanded its capacities in 2013 by adding Italian coater for solvent rubber-based masking tape with various performances and temperature resistant starting from 60°C to 160°C.

With this expansion, Pitamas Group targets itself to stay on its position as a leading manufacturer of adhesive tapes in Indonesia and global market by prioritizing on the quality consistence, developing various items and keeps expanding its coverage to worldwide markets.
