PT. INDO FORTUNE AGROPRENEUR

Product Description

Mangosteen

Commodity	: Mangosteen
Origin	: West Java, Indonesia
Specification	: Fresh
Grade	: A4, A5, A6
Weight	: ± 75-150 gr
Height	: ± 2,5-7,5 cm
Color	: Dark-purple
Price	: FOB :\$5,00- \$10,00/kg
Certificate	: GAP, PRIMA, Phytosanitary

Mangosteens have a very fruity, tropical flavour that seems to be a cross between several fruits. Notes of citrus, banana, peach, and lychee are the most common descriptors.

Mangosteens are very sweet and flavorful, and not that easy to get a hold of outside of Southeast Asia. Most would describe this small, yet beautiful fruit as extremely tasty.

PT. INDO FORTUNE AGROPRENEUR

Product Description

Mango

Commodity	: Mango
Origin	: West Java, Indonesia
Specification	: Fresh
Type	: Gedong Gincu
Weight	: ± 200-240 gr
Height	: ± 9-11 cm
Color	: Reddish-yellow
Price	: FOB :\$5,00- \$7,00/kg
Certificate	: GAP, PRIMA, Phyosanitary

The advantage lies in the short round shape and very attractive color. The base color of the smooth green skin will be decorated with bright red. The color appears because some parts of the fruit are exposed to direct sunlight. The color of the skin will change to reddish yellow when maturity level reaches 90-100%. This fruit is also popular because of its sweet, fresh and fragrant taste.

PT. INDO FORTUNE AGROPRENEUR

Product Description

Dragon Fruit

Commodity	: Dragon Fruit
Origin	: West Java, Indonesia
Specification	: Fresh
Type	: Red
Weight	: ± 200-800 gr
Height	: ± 15-22 cm
Color	: Red
Price	: FOB :\$4,00- \$6,00/kg
Certificate	: GAP, PRIMA, Phytosanitary

The dragon fruit has a dramatic appearance, with bright red, purple or yellow-skinned varieties and prominent scales. The fruit is oval, elliptical or pear-shaped. The flesh has a subtly flavoured sweet taste or sometimes slightly sourish taste. The flesh is either red, with edible black seeds dotted all over.

PT. INDO FORTUNE AGROPRENEUR

Product Description

Longan

Commodity	: Longan
Origin	: West Java, Indonesia
Specification	: Fresh
Type	: Crystal
Height	: ± 2-3 cm
Color	: Brown
Price	: FOB :\$8,00- \$10,00/kg
Certificate	: GAP, PRIMA, Phytosanitary

The flavor of longan is sweet with a musky and slightly tart undertone. Its flavor is very similar to that of lychee, although it is a little bit bland in comparison. Longan has a gelatinous texture that is similar to that of grapes, but it is chewier in comparison. Longan is very juicy with transparent flesh. It has a tan-colored shell and a black seed in the middle.

PT. 1000 FUTURE AGROPRENEUR

Product Description

Strawberry

Commodity	: Strawberry
Origin	: West Java, Indonesia
Specification	: Fresh
Height	: ± 3-5 cm
Color	: Red
Price	: FOB :\$6,50- \$8,50/kg
Certificate	: GAP, PRIMA, Phyosanitary

The flavor of strawberries can vary dramatically based on their ripeness, the individual variety, and how they're grown. Strawberries that are in season and at peak ripeness are fruity, sweet, and juicy, with a little bit of acidity. Bite into one of these plump and juicy red berries and you'll get a big burst of sweetness in your mouth.

PT. INDO FORTUNE AGROPRENEUR

Product Description

Salak

Commodity	: Salak
Origin	: West Java, Indonesia
Specification	: Fresh
Type	: Pondoh
Height	: ± 5-10 cm
Color	: Brown
Price	: FOB :\$3,50- \$5,50/kg
Certificate	: GAP, PRIMA, Phytosanitary

Salak have an amazing tropical flavor that is both sweet and sour with a citrusy undertone. the skin of snake fruit has reddish-brown scales that sometimes have tiny spikes. It is not edible. You can easily peel it off using your hands by pinching the top of the fruit. The Salak Pondoh has a mild aroma that is hardly noticeable. Salak tend to have a foul smell when they are overripe, so do not let them over-ripen.

PT. INDO FORTUNE AGRICULTURE

Product Description

Avocado

Commodity	: Avocado
Origin	: West Java, Indonesia
Specification	: Fresh
Type	: Maestro
Weight	: ± 300-500 gr
Height	: ± 12-18 cm
Color	: Yellowish-green
Price	: FOB :\$5,00- \$7,00/kg
Certificate	: GAP, PRIMA, Phyosanitary

Avocados have a myriad of health benefits, especially for those of you who have high cholesterol levels. The nutritional content of unsaturated fats can reduce bad cholesterol that causes heart disease and stroke. Some people describe the texture of avocados as buttery. The taste of avocado is very unique. Smooth and light.

PT. INDO FORTUNE AGROPRENEUR

Product Description

Sweet Potato

Commodity	: Sweet Potato
Origin	: West Java, Indonesia
Specification	: Fresh
Type	: Orange, Purple, Beniazuma
Weight	: ± 100-400 gr
Height	: ± 20-30 cm
Color	: Dark-orange, Dark-purple
Price	: FOB :\$2,00- \$4,00/kg
Certificate	: GAP, PRIMA, Phyosanitary

Sweet potatoes are a root vegetable that is eaten all around the world.

One thing for sure is that they all have a distinctive taste – some are earthy and nutty, while others may remind you of pumpkin pie.

Sweet potatoes have been consumed for centuries, but their health and nutritional benefits are still being discovered.

PRODUCT TREATMENT

1. Nursery

Seed selection is an activity that determines the yield and productivity of plants.

3. Pest Management

Maintenance of plants from pests is a crucial factor for plant health.

2. Plant Nutrition

Land management with good nutrition is very important for plant life and productivity.

4. Irrigation

The certainty of water for plants in all seasons and conditions is an obligation in gardening.
